Biomedical Limited — Pioneer manufacturers of Intravenous fluids	QUALITY ASSURANCE DEPARTMENT	Document Number	BML/QA/SBP/001
	STABILITY REPORTING FORM	Version Number	02
		Effective Date	September, 2019
		Next Review Date	August, 2022

MASTER COPY

Product Name: **Batch No.:** **Mfg. Date:** **Exp. Date:** **Batch Size:** **Fill Volume:**	**Tests to be performed:** **Description** **Identification** **pH** **Weight per ml (Density)** **Assay** **Microbiological test**	**Frequency of Testing (Months)**

S/N	TEST	SPECIFICATION	RESULT REPORT						
			ACCELERATED STABILITY STUDY		TEMP: 40°C ±2°C		RH: 75± 5%		
			INITIAL RESULT 0	Month 1	Month 2	Month 3	Month 4	Month 5	Month 6
1.	Description								
2.	Identification								
3.	pH								
4.	Assay								
5.	Microbiological tests								
	Bacterial Endotoxins/ pyrogen	≤0.25EU/ml or less than 1.15°C sum temperature rise for three rabbits							
	Sterility	Must be Sterile
